WASHING PLATFORM

Mobile washing platform for the recovery of treatment water used during high pressure degreasing/cleaning

ADVANTAGES

- No civil engineering required.
- Maximum temperature: 93°C (pump 63°C)
- Filtration area 11.2 m²
- Sediment capacity: 36-44 liters
- Surface oil: 21.5 m²
- Oil capacity: 58L (+ / - 6 L)

SPECIFICATIONS

- No civil engineering required
- Easy set-up and dismantling
- Allows the reuse of your degreasing solution within a closed circuit. ZERO DISCHARGE
- Very low maintenance cost
- Fast return on investment
- Maximum flow rate: 6900 L/H 2BAR

OPTIONS

- Inline neutralisation
- Inline flocculation
